NEW JERSEY QUALITY SINGLE ACCOUNTABILITY CONTINUUM SCHOOL DISTRICT EFFECTIVENESS CHECKLIST

Instructions:

This School District Effectiveness Checklist is a self-evaluation completed by each local school district annually and reviewed by New Jersey Department of Education (NJDOE) personnel as the first step in determining the effectiveness of school districts. In completing this checklist, districts are encouraged to work in collaboration with their County Superintendent, other department personnel and other key stakeholders (i.e. community members, parents and school support teams), as needed. This checklist delineates principles of school district effectiveness through the following 5 components of effectiveness established by NJDOE:

- Instruction and Program;
- Personnel;
- Fiscal Management;
- Operations; and
- Governance.

Within each component there are quality indicators which are Federal/State requirements and those which support these requirements and demonstrate importance to the overall improvement of and/or maintenance of quality of a school district. Compliance with all indicators will assist the districts in increasing its overall effectiveness.

<u>Please note</u>: To receive the point value for each Federal/State Required Quality Indicator, compliance with all the supporting standards is required. The maximum allowable score for Federal/State Required Quality Indicators are 96 points. Each of the Supporting Quality Indicator standards are assigned a point value based on a 1-5 scale of proficiency. Maximum allowable score for supporting indicators is 65 points. The total score for district effectiveness is 161 points.

- 1. The Federal/State Required Quality Indicators (16 in total) are identified with an asterisk (*).
 - a. Successful completion of the standards for each indicator must be demonstrated and indicated with a Yes or No response. Respond with a check mark in the corresponding box of every standard. Respond as follows:
 - "Yes," if the standard has been successfully met;
 - "No." if not met: and
 - "NA," if the standard is not applicable to the district.
 - b. Successful compliance with each standard shall be measured by written documentation which will be retained at the district/school and only forwarded upon request.
 - Each indicator is assigned a point value of 0 or 6. The maximum allowable score is 96 points.
 - NJDOE personnel may request verification of compliance with each standard or indicator.
 - e. Federal/State Required Quality Indicators are assigned a <u>weight value of approximately</u> 60% of the total performance rating.

- 2. The Supporting Quality Indicators (13 in total).
 - a. Each of the Supporting Quality Indicators are assigned a point value based on a 1-5 scale of proficiency for each standard.
 - b. Using the attached rubrics, each district shall determine compliance with each quality indicator. The scale is as follows:
 - 1= no development or implementation;
 - 2= little development and implementation;
 - 3= limited development or partial implementation;
 - 4= fully functional and operational level of development and implementation;
 - 5= exemplary level of development and implementation.
 - c. To calculate a score for each standard, assess a value for each criteria using written documentation. Add the value of each standard to obtain a total score for each quality indicator. Divide the total score of each standard by the number of applicable standards in each quality indicator. The maximum allowable total score for all Supporting Quality Indicators is 65 points.
 - d. These quality indicators are assigned a <u>weight value of approximately 40%</u> of the total performance rating.

3. Scoring and Results

- a. The maximum possible total score is 161.
- b. To complete the checklist and obtain the final results, each section (Federal/State Required Quality Indicators and Supporting Quality Indicators) is to be totaled separately. Each category of district performance has been assigned a <u>cut score</u> as follows:

Performance Category	Scoring Range (Federal/State Required Quality Indicators + Supporting Quality Indicators)	Federal/State Required Quality Indicators Minimum Cut Score
High Performance	161 – 128	76
Moderate Performance	127 – 80	48
Low Performance:	79 – 0	
a. Partial Intervention	79 – 48	28
b. Full Intervention	47 – 0	27

- c. To determine placement on the performance continuum, a district must fall within the total range of a performance category. Secondly, a district must meet the minimum cut score for the federal/state requirements as established for each performance category.
- d. Using the conversion table, apply the total score to determine the district's performance on the NJ Quality Single Accountability Continuum.

NEW JERSEY QUALITY SINGLE ACCOUNTABILITY CONTINUUM SCHOOL DISTRICT EFFECTIVENESS CHECKLIST

School	District School Year
l.	INSTRUCTION AND PROGRAM Federal/State Requirements(6 PTS for Each
••	Quality Indicator)

14 *04 - Lead or of commence from a real commence of c	N/A	YES	<u>NO</u>	PTS
IA. *Student performance for each grade assessed met the State standard.				
 Meets the established benchmark for students at or above the proficient level in each of the content areas (LAL, math & science when added).)		
ii. Experiences a 95 percent minimum participation for each state assessment.		7		
iii. The district administration and teaching staff utilize assessment information to improve learning opportunities for all students.				
IB. *Student behavior indicators showing evidence of meeting state standards for:	N/A	<u>YES</u>	<u>NO</u>	<u>PTS</u>
Student attendance				
i. The district has an average daily attendance rate of 90% or higher.				
 Drop-out/Graduation rate ii. The drop-out rate for pupils in grades 7 through 12 does not exceed 10%. 				
iii. Schools have reduced their drop-out rate by .5% per year until they reach the prior years' statewide drop-out rate percentage.				
iv. Schools are in compliance with established graduation rates.				
 Reducing violence and vandalism and maintaining 				
_ <u>student safety</u>				
v. The reported number of serious incidents is below the state established				
vi. Incidents of violence and vandalism and substance abuse are accurately				
recorded in the DOE's Electronic Violence and Vandalism Reporting				
System and verified by the chief school administrator.				
vii. The district has held annual public hearings at which it provides a report on				
incidents of violence and vandalism and has submitted the transcripts of the hearings to DOE as required.				
IC. *Program and Curriculum indicators showing evidence of:	N/A	YES	<u>NO</u>	<u>PTS</u>
 Curriculum is modified to reflect changing student needs. 				
 The district has adopted a 5-year curriculum evaluation schedule, which covers all content areas at all grade levels and provides that at least one content area will be evaluated each year. 				
ii. The district has board-approved written curricula, aligned with the state's core curriculum content standards, for all content areas at all grade levels.				
iii. The district has developed and implements a process for ensuring that its curriculum is articulated among all grades and schools in the district. The process involves participation by teaching staff members.				

•		applicable K – 12 programs for students are developed and				
		lemented, in accordance with the required federal and state				
		ndates (i.e. general education, special education, bilingual,
